

MOBILE SECURITY ODS 8500 TRAILER

Cutting-Edge Technology

ODS 8500 Mobile surveillance trailer can be deployed in minutes.

- Intruder Detection and Alerting System
- Multi Level Deterrence
- Mobile Surveillance With Wireless Connectivity
- Solar and Hybrid Powered
- Quality guarantee + 2 years Warranty
- Connectivity to all major VMS
- Optional: Onboard Luxriot EVO-S VMS running on Rugged Server

HEAVY DUTY ROBUST TRAILER

8'x5' Heavy Duty Custom Trailer with 3000 Lbs Axle and 15 Inch wheels. Four leveling jacks on Outriggers plus one wheeled Jack, for easy deployment. Removable tongue allows smaller footprint and protection from vandalism.

ODS 8500 TRAILER

SOLAR-POWERED LONG-LASTING BATTERY

Powered by Sun, with durable battery providing 3+ days of battery autonomy.

WIRELESS CONNECTIVITY AND REMOTE HEALTH MONITORING

Standard equipment includes dual SIM rugged 4G Router with WIFI & GPS. An onboard computer provides electrical health of the unit, as well as allows remote software update capability.

SECURITY REINFORCEMENT FOR VARIOUS SITUATIONS

Great for short-term or long-term deployment and can operate independently with built in VMS, as well as tie into existing security infrastructure. Ideally suited for security and monitoring of construction sites, event centers, exploration fields, security outposts, parking lots, and more.

HYBRID OPTION

Both generator and fuel cell hybrid options available.
